Too many toys?

Some parents buy their children a large number of toys to play with. Did you have many toys in childhood? Actually, I did. I think every parents agree that they like when their child smiles and they like make him happy. It's a reason why they bought toys.

Many toys can teach children to do something. For example, when I was 3 years old I saw 2 baby-dolls. This dolls can speak. My mom can't ~~buy~~ them. Before that I can't walk without my parents. And when my grandmother bought it I run so fast without any help from my parents and said some words ¹⁰⁶

I knew that many toys teach babies to speak or what do in different situations.

Toys are part of game. In childhood the game is the most important thing of development. In game with toys small persons learn how to live in this world. Often they're looking on their parents and repeat after them with their toys.

Sometimes a small bear or a doll can be the best friend of child.

But buying many toys has some bad sides. For example, children can ask buy new toys for infinity and parents can't refuse them. Sometimes in adult age they can think that everyone must do that what they want. ¹⁰⁰

Except this fact I think a large number of toys is advantage. If you have other opinion share it with us! ²⁸
