An Ideal place to stay for travellers.

There are many places in Anapa and near the city where you can just stay for night, or even for all your holidays. And the "Rainbow" hotel is one of the most optimal places to live, in my opinion.

This hotel is not far from the city. You can easily reach it from the bus station nearby: you just need to walk about sixty meters along the street, and you will see a wide building with four floors between some other hotels. Trust me, you won't miss it.

When you come in, a kind person will meet you at the reception. It's an owner of this place. He will offer you different rooms for any budget. Even the cheapest ~~number~~ room has very much space, good beds, TV and a shower for very democratic price.

Also, I'd like to tell about some interesting facts in my review:

- There is an amusement park about one hundred meters away, so you can entertain yourself without going far from the hotel.

- You ~~can~~ may think, that park sounds nearby will interrupt your peaceful sleep, but don't worry - hotel walls have an additional isolation.

As for me, I really enjoyed staying there with my family, because there are very communicative workers, that are ready to help you anytime and a lot of activities to do. And in conclusion of my review, I would like to make a recommendation ~~as~~ for prospective travellers, and ~~as~~ for any traveller at all - don't worry about your money, you won't spend all your savings there, just relax and try any activities you want.
