Firstly, more and more people want to follow fashion that is why designers need to come up with new ideas about fashionable clothes.

To my mind, clothes will be more practical and comfortable in the future, because now they are not. The fashionable clothes are very dark and unbeautiful. In my opinion, in the future people will wear colorful hats and brightly jeans! People in the future will have a lot of ideas and they will create more and more uncommon clothes which I would like to see, because I don't like dark colours which have the fashionable clothes now. It is very boring!

In conclusion, I would like to say that I don't like the fashionable clothes now and I would like to see the fashionable clothes in the future, because fashion is changing very fast and in my opinion, there will be nothing left to the old fashion at all.

People in the future will wear, as I think, beautiful

~~dress~~ dresses, suits, because it will be very cool, if people will wear bright outfits! I like the idea that in the future people will see our fashion shows and they will be very surprise!

That is amazing that fashion is changing so fast and people in different countries would like to follow fashion, because, as I think, the fashionable in the future will be very different because of this! Different boots, dresses... That is

sounds very good! I would like to see it very much and hope that it will be very soon! Why not? This is an amazing idea to change something in the life!
