Writing

I would like to tell you about what I think about the modern forms of communication. There are a lot of ways of communicate with each other. People meet every day at school, at work, at shops. But usually when we have some free time we spend it by surfing the Internet or watching the television. And we forget that we have friends. I consider that the modern forms of ~~communication~~ ^{commun.} are great but I agree with that the modern forms of communication has had a negative effect on people's social lives. Nowadays people spend less time with their friends and relatives. It is bad to my mind we should show our friends how we love them ^{by} working together or going to the cafe. I have had a friend. First we met every day. But two years from now we spent less time together only sent the e-mail to each other. Soon we finished our communication at all.

In conclusion I want to tell you just a word about people's ~~to~~ communication. Messaging is a good way of communication but we should meet our friends as often as we can.
