Problem our days

In 21 century progress in technology was amazing. Car without fuel, eco-village, micro-computers. It's great but I think that we need to remember old times, when people talking with letter.

In an 20 century people ~~talking~~ talked with letter, just think, when you sent a letter, you need to wait 2 or 3 weeks. It's great, my father tell me when he was young, he spent his time on the street, he ~~didn't have~~ ^{has} a computer, only a football ball, he has a lot of friends, they make a party with guitar and books, but if you ~~had~~ ^{had} Dendy, you are the coolest man in the street, everyone wants to come to your home and played in with you.

But nowadays is a good time, you don't need to wait when your letter arrived. Anyone ~~have~~ ^{has} PS4 or Xbox. And that is the problem here. People don't talking in a real life, they have a avatar in the social ~~street~~ ^{web}. I have some experience in this question because I when I was young I spent a lot of time in computer, but now I spend my free-time on the street, like my father.

Negative this or not it's deal of everyone, but I think that is bad, I disagree with social life.
