Writing

People usually use e-mail and messaging to talk ~~on~~ with their friends. There are many forms of communication.

Some people think, that this forms of communication are very good and ~~useful~~ ^{useful to} ~~some~~ But others don't think so. They think that this ^{has} had a negative effect on their social lives.

I think that e-mail and messaging are useful. Firstly, if your friend or ~~other~~ ^{your} parents live in other city, you can send a message or call him or her. Secondly, it takes a few seconds to send a message. But ~~for~~ ^{on} other hand it is not very good, because your meetings with your friends or parents will be seldom. For example, my grandmother and uncle live in Vladivostok. I usually call them, but I want to see them and I miss them. Sometimes I call them ~~by~~ ^{by} "Skype". It is ^{video} call. It helps to see and ^{to} talk with my relations. I have a friend. Her name is Dasha. She lives in Moscow. ~~She~~ ^{she} usually sends messages to me, and I send messages to her too. It is very suitable.

I am ^{so} glad, that there are different forms of communication in our life.
