Writing

First, you need to know that I am only 13 years old and don't know all the things in the world. So I can't tell you about all qualities of teachers that ^{are} so important ^{at} this time. All teachers in my school don't have any special abilities or qualities, I just can understand what they are talking about.

So, in our life we often visit teacher. They prepare us to the next part of our life. They are very important people. So we need to pay respects for them. But if you want to be a teacher, you must have some ^{key} qualities. I want to tell you about them.

The first and the most important quantity is ability to correctly explain the school material and answer the question "why?": "Why the ^e earth is not flat?", "why we don't spell it 'in tsunami'?" Every teacher must be able to explain that.

The next quality is ability to talk correctly. I mean that if the teacher just read the paragraph, it will be so boring and pupils will not remember that. But if teacher uses interesting examples, life situations, jokes etc., the school material will be interesting for pupils, so it is good motivation ^{to} go to school.

That is all I wanted to say.
