What are some important qualities of a good teacher?

I Today I'd like to tell you about the most important qualities of a good teacher.

At first, a good teacher must be smart. Yes, it is very unusual, but it's true. If the teacher is not very smart, he can't give us some knowledge. For example, we have a teacher, who is not very smart and he can't teach us.

The second important quality is ~~kindes~~ kindness. As for me, the teacher must be kind, because if the teacher is angry, his students don't like him. Oh, and the teacher ~~had~~ have to be happy. If the teacher is happy, his students are happy too. In our school we have very kind and happy teacher. And when we are at his lesson, we are happy too. We like to work with him.

And the third important quality is understanding. As for me, a good teacher have to understand his students. For example, when the student doesn't prepare a homework because he is tired at the evening, the teacher have to understand him and give a "present" to do a homework again. But it must be not always, because it is wrong.

I think, that's all important qualities of a good teacher for me.
